**Ac Voltage Rating:**

115.0 volts

**Dc Voltage Rating:**

28.0 volts

**Frequency Rating:**

400.0 hertz

**Accessory Component Quantity:**

1

**Furnished Items:**

Pantenna-receiver, radar transmitter, programmer power supply, command computer, forward assembly mounting, radar altimeter warning control, azimuth range indicator, azimuth range indicator, radar set, electrical signal converter

**Accessory Controlling Agency:**

Joint electronics type designation system

**Accessory Identifying Number:**

T-920/apq-99 type no.

**Electrical Power Source Relationship:**

Operating

**Phase:**

Three

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T208-a
