Ac Voltage Rating:

115.0 volts

Dc Voltage Rating:

28.0 volts

Accessory Component Quantity:

1

Furnished Items:

Antenna-receiver, radar transmitter, power supply-programmer, command computer, forward assembly mounting, azimuth range indicator, azimuth range indicator, radar set control

Accessory Controlling Agency:

Joint electronics type designation system

Accessory Identifying Number:

T-920/apq-99 type no.

Electrical Power Source Relationship:

Operating

Phase:

Three

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T208-a
