Overall Length:

1.171 inches

Overall Height:

0.295 inches

Overall Width:

0.700 inches

End Application:

Receiver- transmitter, radio communication equipment, airborne

Component Type And Quantity:

1 capacitor and 1 coil and 1 cover and 2 bracket

Special Features:

Two no. 2-56 mtg holes in integral mtg bracket; used as a tuned circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
