Ac Voltage Rating:

115.0 volts

Dc Voltage Rating:

28.0 volts

Accessory Component Quantity:

1

Furnished Items:

Antenna-receiver, amplifier-power supply, synchronizer-transmitter, terrain following computer, electrical equip rack, terrain following indicator, radar set control

Accessory Controlling Agency:

Joint electronics type designation system

Accessory Identifying Number:

Sn/379/apq-110 type no.

Electrical Power Source Relationship:

Operating

Phase:

Three

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T208-a
