**Overall Length:**

3.875 inches

**Overall Height:**

0.750 inches

**Overall Width:**

2.312 inches

**Component Type And Quantity:**

3 capacitor and 2 choke and 3 diode and 14 resistor and 1 transistor

**Special Features:**

Mounting method and configuration: four holes 0.147 inch diameter located on 1.938 inch by 3.328 inch centers

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A51110
