Overall Length:

4.719 inches

Overall Height:

1.250 inches

Overall Width:

1.937 inches

End Application:

Radar, airborne except fire control and guided missile

Special Features:

Capacitors 13; coils 14; connectors 2; resistors 7; sockets 2; terminal, feed through 1; electron tube 2; two holes no. 4/0.112 in./-40 thds spaced 0.906 in. C to c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
