**Overall Length:**

4.719 inches

**Overall Height:**

1.250 inches

**Overall Width:**

1.937 inches

**End Application:**

Radar, airborne except fire control and guided missile

**Special Features:**

Capacitors 13; coils 14; connectors 2; resistors 7; sockets 2; terminal, feed through 1; electron tube 2; two holes no. 4/0.112 in./-40 thds spaced 0.906 in. C to c

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A51110
