Overall Length:

3.953 inches

Overall Height:

0.750 inches

Overall Width:

2.312 inches

Component Type And Quantity:

7 capacitor and 1 choke and 8 diode and 20 resistor and 3 transistor

Special Features:

Mounting method and configuration: four holes 0.147 inch diameter located on 1.938 inch by 3.328 inch centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
