Overall Length:

1.740 inches

Overall Height:

1.225 inches

Overall Width:

1.300 inches

Features Provided:

Electrostatic sensitive

Component Type And Quantity:

4 capacitor and 10 diode and 20 resistor and 8 transistor

Special Features:

Mounting method: pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
