Overall Length:

11.000 inches

Overall Height:

15.000 inches

Overall Width:

8.000 inches

Component Quantity:

1

Locking Device:

Not included

Component Controlling Agency:

Jetds

Component Name:

Doppler simulator

Component Identifying Number:

An/gpm-60 type no.

Handle Quantity:

2

Handle Location:

Each side

Material:

Aluminum

Surface Treatment:

Enamel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-a
