Overall Length:

1.500 inches

Overall Height:

0.750 inches

Overall Width:

0.900 inches

Component Type And Quantity:

5 capacitor and 1 chassis and 1 coil and 15 resistor and 7 semiconductor and 6 transistor

Special Features:

Mounting method and configuration: 11 pins irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
