Special Features:

This altimeter set is a low altitude, automatic, all weather, leading edgepulse type radar equip; the set will generate, transmit, receive and analyze a microwave signal; dial and digital type of indicator; 1, 500 ft. Maximum altitude indicated; outputs provided for connecting to automatic pilot; freq. Data 4200 to 4400 mc range; (1) band; (1) channel; dc 28 v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
