Average Life Measurement:

Not rated

End Application:

An/apq-17 (v)

Inclosure Type:

Encased

Installation Design:

Mechanical

Circuit Construction Type:

Solid state

Output Wave Shape:

Pulse, trigger

Criticality Code Justification:

Feat

Special Features:

Electrostatic discharge sensitive

Special Markings:

4 caution labels, 1 danger label

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:
