End Application:

Navigation pod an/aaq-13 lantrin

Usage Design:

Next assembly, 2689500, tx lanmmr prod

Component Type And Quantity:

1 plate and 2 screw and 2 washer

Product Name:

Radar interface unit - lantrin

Special Features:

Ocommon name: radar interface unit; electro-static discharge sensitive; performs control, digital data processing and monitoring functions for the radar set. Controls antenna postioning and schedules radar transmissions. Processes received radar video signals. Monitors the status of the radar antenna, radar transmitter, radar receiver, radar power supply, and the radar pressurization unit, as well as itself. Provides a maintenance interface to external test equipment.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A51110
