**End Application:**

Monotatic radar reflectors

**Reflecting Elementdiameter:**

9.000 inches

**Special Features:**

Weight 7lbs; frequency ghz 10; used with radar systems in which the transmit antenna and the receive antenna are the same or located at the same place

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T222-b
