Overall Height:

2.000 inches

Current Type:

Dc

Dc Voltage Rating:

22.5 volts

Overall Diameter:

3.000 inches

Furnished Items:

Battery

Cubic Measure:

0.027 cubic feet

End Application:

Test-mine locating system mk 1 mod 0

Document Type:

Technical manual

Document Identification:

Op3233

Component Document Page Number:

1

Accessory Identifying Number:

2491362 drawing no.

Electrical Power Source Relationship:

Operating

Usage Design:

Used as sonar transmitter, mine locator, on non-service mines mk 25, 36, 52, 53, 55

Internal Battery Accommodation:

Not included

Component Controlling Agency:

Naval mine engineering facility

Unpackaged Unit Weight:

2.500 pounds

Sonar Emission Type:

P9

Voltage In Volts:

22.5

Special Features:

Mk 62 mod 0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T212-c
