**Overall Length:**

8.000 inches

**Overall Height:**

0.452 inches

**Overall Width:**

6.560 inches

**Component Type And Quantity:**

2 capacitor and 1 choke and 2 ejector and 1 printed wiring board and 18 resistor

**Special Features:**

Major components: integrated circuit 15, jack tip 15, component quantity: 45; mounting method: connector, rack

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A5110
