Overall Length:

5.560 inches

Overall Height:

0.402 inches

Overall Width:

2.300 inches

Component Type And Quantity:

1 printed wiring board and 1 resistor

Special Features:

Major components: semiconductor device, diode 1; component quantity: 24; mounting method: connector, rack

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
