Overall Length:

4.680 inches

Overall Height:

0.400 inches

Overall Width:

2.620 inches

Component Type And Quantity:

1 capacitor and 1 chassis and 1 clip and 1 coil and 1 diode and 1 isolator and 1 resistor

Special Features:

Component quantity: 28; mounting method and configuration: four, 0.173 inch diameter mounting holes 2.062 inch by 4.125 inch mounting centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
