General Description:

Plug-in ssd electronic module, digital, key code nh2; size 2b 100-pin super nafi; power supply 5 v porm 5 pct, dissipation 4.9 watts; oper temp 10.0 to 50.0 degrees c; contains differential line drivers for 13 unidirectional data bits and 16 bidirectional data bits, receives and buffers one differential control bit, and has 2 more control lines for the direction of bidirectional bus

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
