General Description:

One transmission wire; acoustic cell w brass end plates and invar cross members; silver oxide battery powered; 3.6v regulated for designed depth; 210-233hz output; depth for which designed 850 meters at 15 knots; transducer pulsed at 6.5mhz; sound velocity sensor 5mm pzt-5 piezoelectric transducer sep by 26mm from brass reflector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
