**End Application:**

Final assembly under the ice ssxvt p/l 300648-1

**General Description:**

Depth for which designed 850m at 15 knots; 5m depth accuracy; 7cm x 39.5cm dimensions; 1.2kg wt; velocity accuracy p or m 0.25m per sec; zinc nose; 21mm x 22mm integrated circuit activated upon water impact; silver oxide battery powered; one transmission wire; submarine launched systems ssv or ssvt; sippicans mk-8 and mk-9 xsv/vt data systems will interface with any sippican vt or sv

**Type/model Designation:**

Sonar 2039

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
