End Application:

Final assembly under the ice ssxvt p/l 300648-1

General Description:

Depth for which designed 850m at 15 knots; 5m depth accuracy; 7cm x 39.5cm dimensions; 1.2kg wt; velocity accuracy p or m 0.25m per sec; zinc nose; 21mm x 22mm integrated circuit activated upon water impact; silver oxide battery powered; one transmission wire; submarine launched systems ssxsv or ssxvt; sippicans mk-8 and mk-9 xsv/vt data systems will interface with any sippican vt or xsv

Type/model Designation:

Sonar 2039

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
