**Overall Length:**

5.620 inches

**Overall Height:**

0.950 inches

**Overall Width:**

3.620 inches

**End Application:**

Surface anti-submarine warfare combat system an/sqq-8 (v) 4

**Component Type And Quantity:**

18 capacitor and 18 diode and 3 microcircuit and 1 printed wiring board and 1 relay and 45 resistor and 11 terminal and 1 transistor and 1 varistor

**Special Features:**

Major components: test point 4; component quantity; 103

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A5110
