Overall Length:

5.620 inches

Overall Height:

0.950 inches

Overall Width:

3.620 inches

End Application:

Surface anti-submarine warfare combat system an/sqq-8 (v)

Component Type And Quantity:

18 capacitor and 18 diode and 3 microcircuit and 1 printed wiring board and 1 relay and 45 resistor and 11 terminal and 1 transistor and 1 varistor

Special Features:

Major components: test point 4; component quantity; 103

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
