Ac Voltage Rating:

115.0 volts

Frequency Rating:

400.0 hertz

End Application:

Meltem acoustic segment

Phase:

Three

Special Features:

9radio receiver r-4845/arr-50 (v) 1 contains 16 separate acoustic receiver modules; receiver provides dc operating power, the control interfaces, frequency standard, self-test circuits for stimulating the receiver modules and evaluating their outputs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T212-e
