Frequency Rating:

37.5 kilohertz

End Application:

Hawk aircraft

Usage Design:

Assists in underwater recovery of aircraft and their recorders

Unpackaged Unit Weight:

4.900 ounces

Special Features:

6 year battery life; 2.97 inch long; 1.3 inch diameter; 10ms pulse length; 0 to 20000 feet operating depth; aluminum housing material; 0.9 pulses per second; water switch activation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T212-g
