Ac Voltage Rating:

110.0 volts

Frequency Rating:

60.0 hertz

Joint Electronics Type Designation System Item Name:

Transmitting set, infrared

Joint Electronics Type Designation System Item Type Number:

Type no.An/sat-2b

Power Output:

600.000 watts

Phase:

Single

Special Features:

0.75 to 1.2 microns wave length range; energy source data, tungsten lamp type; reflector lens optical system; beams spread, 200 degrees horizontal angle, 20 degrees vertical angle; jetds, infrared transmitter, type no.T-438b/sat-2, jetds, telegraph key, type no.Ky-129/sat-2, 1, jetds, transmitter control, type no.C-1356/sat-2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T199-c
