Voltage Rating In Volts:

9.0 dc

Product Name:

Transmitter, visible light

Special Features:

Three programmable channels. Synchronized operation capability with other ir-35 units. Transmits visible green identification beacon. Operates underwater. Power source: 1 ea. 9 volt; battery life: 40 plus hours; 530-550nm visible green. 3 beacons in trainer pack.

Shape:

Rectangular

Special Test Features:

Visible light synchronized beacon trainer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A06300
