Special Test Features:

Optical phase shift operates in conjunction with interlace for compensation of system electronics signal delay

General Description:

530 hz scan frequency; bi-directional scan; scan efficiency (duty cycle); 75 percent at 30 hz and 5.5 degree scan; 5.5 degree scan amplitude; 2.2 watts at 30 hz, 5.5 degree scan; 3.22 in lg by 3.13 in w by 4.18 in h; 1.75 pounds; vehicle installation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
