Overall Length:

5.000 inches

Dc Voltage Rating:

Between 17.0 volts and 32.0 volts

Overall Diameter:

3.000 inches

Electrical Power Source Relationship:

Operating

Special Features:

Wlinear drive; dc power; helium filled compressor; cool detector to 80 k in 15 minutes; cooling capaci type 1 watt to 80 k; 55 watts ; 4 pounds; 15 inch transfer line; cooler is bolted to chassis of the flir systems; airborne installion

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T213-e
