Overall Length:

6.000 inches

Dc Voltage Rating:

Between 17.0 volts and 32.0 volts

Overall Diameter:

2.000 inches

Electrical Power Source Relationship:

Operating

Special Features:

6technical char: linear drive; helium filled compressor; cool detector to 80k in 10 minutes; cooling capaci type 0.35 watt to 80k; 35 watts max; 2.5 lbs; 12.000 in.Transfer line; cooler bolted to chassis of flir system; combat vehicle, manportable installation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T213-e
