Overall Length:

7.000 inches

Overall Height:

11.000 inches

Overall Width:

11.000 inches

End Application:

An/mwq-503

Wattage Rating:

50.000 watts

Voltage In Volts And Current Type:

28.0 dc

Special Features:

Low power consumption; motor 840 rpm scanner module; cooler assembly runs on 0.25 watts; video provides 240 lines of ir imagery; top mounts to telescope 3 in. By 0.250 in. -28 unf, bottom mounts to display 4 in. By 0.164 in.-32 unc

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
