**Overall Length:**

7.000 inches

**Overall Height:**

11.000 inches

**Overall Width:**

11.000 inches

**End Application:**

An/mwq-503

**Wattage Rating:**

50.000 watts

**Voltage In Volts And Current Type:**

28.0 dc

**Special Features:**

Low power consumption; motor 840 rpm scanner module; cooler assembly runs on 0.25 watts; video provides 240 lines of ir imagery; top mounts to telescope 3 in. By 0.250 in. -28 unf, bottom mounts to display 4 in. By 0.164 in.-32 unc

**Material:**

Aluminum

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
