Special Features:

2830 nm wavelength 200mw power output 14000 0.5 mr beam, 4000 2 degrees beam 2000 10 degrees beam, beam modulation continuous wave, beam shape rectangular 1x tall by 4x wide. Fda laser classification 111b, eye safety features arming switch in flaps, lens cover, eye safe training filter, power source 1 aa batteries, weight 4.1 g, kit includes acp2, lens cover, velcro hook mounting case with battery pouch, eye safe training filter 2 aaq bateries, operator manual soft carrying case canopy reflection shield

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
