End Application:

Airborne sensor

Joint Electronics Type Designation System Item Name:

Forward looking infrared imaging system

Joint Electronics Type Designation System Item Type Number:

An/ass-53

Product Name:

Common sensor paylo

Special Features:

Operation in day, night, offers ir/tv fused video, and provides target illumination, designation and tracking

Functional Description:

Common sensor payload provides the host vehicle operator with infrared and visible imaging capability during day and night csp, also provided laser target designation

Relationship To Similar Equipment:

Similar to but not functionally an/das-2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
