**Overall Height:**

3.110 inches

**Overall Width:**

5.620 inches

**Overall Diameter:**

2.110 inches

**Current Rating:**

0.700 amperes

**Wattage Rating:**

16.800 watts

**Voltage In Volts And Current Type:**

24.0 dc

**Special Features:**

Twenty-four infrared leds aligned in four independently powered arrays, luminous output 1000mw; ir laser with luminous output 30mw; nvis goggles, generation ii or later detection device; operating temperature -40 to 85 degree c

**Material:**

Aluminum alloy

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
