Special Features:

Pyroelectric energy sensor; broadband black coating with flat response over a wide wavelength range; 11mm diameter aperture; 10nj resolution; for general use and high optical pulse measurements; ceramic coating with high damage thresholds for high-energy density lasers; includes bnc connector and sensor adapter for use with pm200, pm100d, pm100usb and pm320e consoles

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
