End Application:

Anv-126 or anv-126a image intensifier tester

Test Item Connection Method:

Direct coupling

Product Name:

Image tube test adapter

Special Features:

For use with mx10130 image intensifier; permits evaluation of tube parameters without the need to assemble/disassemble tube from optical system

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A537k0
