Unable To Decode:

Unable to decode and unable to decode

Special Features:

The an/vas-5b is a compact, lightweight, uncooled, passive, thermal imaging system for use on a variety of army vehicles. The an/vas-5 (v)5 will provide enhanced visibility during periods of darkness or degraded visibility for the vehicle operation and crew. The sensor assembly (receiver, infrared) houses the optics and electronics that detect and process the imagery for display on the control-display, optoelectronics module. Control of the system is also provided through the display module.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:
