**General Description:**

Electrical data, 115 v, 50 to 400 hz, 50 va volt-amps, 5 mw of power at 632.8 nanometers wavelength, beam diameter 0.65 mm at 1e2 points, beam div 1.7 milliradians, deg of polarization, linear to better than one part per thousand angle of polarization, adjustable, vertical form 20 pct, plasma excitation, dc self starting

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
