End Application:

Five seven and p90 weapons

Product Name:

Las/tac laser moudle

Material:

Aluminum

Surface Treatment:

Anodize

General Description:

Q3 volt duracell dl123a lithium battery; 0.58 square centimeters at 25 meters beam diameter; waterproof to 10 meters; 5 milliwatts power output; 450 meters low light visability; 30 meters daytime visibilty; 635nm wavelength

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
