Overall Length:

2.800 inches

Overall Height:

1.100 inches

Overall Width:

2.100 inches

Voltage In Volts And Current Type:

1.5 dc

Product Name:

Dual beam aiming laser-intelligent

Special Features:

The dbal-i provides optimal power with an infrared laser for low light conditions and a visible super power point laser for daylight visibility; the rugged, compact dbal-i is designed to meet mil-std-810f for tough environmental conditions; battery: one 1.5 volt aa; material: anodized aircraft aluminum 6061t-6; weight (with battery): 7.5 oz; environment: waterproof to 20 meters

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
