End Application:

Johnson acculine pro 40-6710 laser detector

Voltage In Volts And Current Type:

1.5 dc

Product Name:

Laser detector, two sided

Special Features:

Quickly and accurately locate laser signal emitted from rotary or pulsed beam line generating laser levels. Front and back displays. Range 300 meter radius

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
