Overall Length:

8.969 inches

Overall Height:

0.750 inches

Overall Width:

4.656 inches

End Application:

Receiver subassembly

Component Type And Quantity:

1 printed wiring board

Special Features:

Capacitors, resistors, integrated circuits, crystal; mtg method: printed circuit and rack; component quantity: 34

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
