End Application:

F/fb-111; an/alr-6 (v) peculiar

Joint Electronics Type Designation System Item Name:

Receiving set, countermeasures

Joint Electronics Type Designation System Item Type Number:

An/alr-6 (v)

Usage Design:

Designed for airborne installation (f/fb-111 aircraft)

Functional Description:

Item is a passive, automatic wide band radar receiving and analysis system which provides the aircrew w/visual and audio alerts in the presence of radar threat signals

Supplementary Features:

Oper power reqmts: 108-118 vac, single phase, 393-407 hz, 22-29 vdc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
