End Application:

P-3 common

Functional Description:

Used to provide detection, amplification of rf signal to descriptor generator where high speed analog-to-digital conversion takes place

Relationship To Similar Equipment:

An/alr-6 (v) 2 replaces an/ald-2 with greater capabilities and functions

General Description:

2 band; dual channel; 8.44 in. Lg; 5.43 in. W; 3.34 in. H; 5 lb; operating power, 5 v at 80 ma max

Fsc Application Data:

An/alr-6 (v) 2 countermeasures receiving set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
