End Application:

An/alr-56a lru 3 mod

Emission Type:

A7a

Supplementary Features:

Vc/o chassis assembly 1, processor/adaptor 1, reg & mem prot 1, yig driver ref supp 1, synthesizer cont nos. 1 and 2 (1 ea), computer input data 1, cca computer output data 1, cca input data link 1, noise agc 1, fine freq analog board 1, pvp 1 (1 ea), pw amp conv 1, vid proc ntrl 1, tc control 1, clock gen 1, bit audio 1, tone filter 1, mux control 1, cca agc control 1, pvp 2 (1 ea), bit coupler 1, bit oscillator l band 1, l band yig tuned filter 1, assy tracker 1, high pass filter 1, low band vco 1, fixed rf attenuator 1, fixed divider low band 1, cw digital 1, rf cable assembly (2w41) 1, log if assembly 2, if limiter 2, lim/fil/amp 1, cable assemblies various 28, connector key 2, if post amp 1, saw crystal osc 1, v cont osc 1, fltr, bp, w/conn 1, standoff 8, and miscellaneous hardware

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T213-m
