Special Features:

Ac voltage rating: 380.0 volts ; freq rating: 50.0 hertz nom; elec pwr source relationship: alternate operating; doc controlling ageency: us army; phase: 3

Functional Description:

Equipped with transmitter, antenna elements and electronic components that implements received taskings

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
