Component Type And Quantity:

1 generator

Special Features:

Generates ecm techniques in 3 modes - noise, repeater and transponder; one of 11 different ecm techniques can be stored in 15 memory modes; contains an oscillator either .85 to 1.6 ghz or 2.0 to 4.0 ghz; 28vdc, 10 amp power requirement; .850 to 4.0 ghz operating band

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
